

## GiftNow Corporate Gifting Supplier Partnerships

Thank you for your interest in partnering with GiftNow for supplying products for our Corporate Gifting Program. Our approach to corporate gifting differs from many other organizations. GiftNow never pre-purchases or warehouses products and generally utilizes APIs to automate pulling product information and placing orders directly on a supplier's ecommerce site. This integrated approach means we are selective in which companies we choose to partner with.

Please answer the questions below and email your responses to [hello@giftnow.com](mailto:hello@giftnow.com) and, if we determine there's a fit, someone will contact you shortly. Note that we can only partner with US companies at this time.

- Is your ecommerce revenue over \$20 million? Please include a link to your ecommerce site.
- How many SKUs does your company sell online?
- Do you have Product and Order APIs available for 3<sup>rd</sup> parties to utilize?

Thank you so much. We look forward to your reply at [hello@giftnow.com](mailto:hello@giftnow.com).

Best,

GiftNow Team
